

ZONCARE'S PROGRESS I

ZQ-6601

Full Digital Ultrasonic Diagnostic System

Feature

- Original double wave beam imaging technology in the industry
- 10.1 inch medical use LED monitor
- 2 activated probe connectors, probe auto-freeze protection
- Efficient workflow and real-time operation navigation prompt makes the operation much more easier
- One key full screen display, hidden menu item, let the diagnosis more intuitive
- Measurement software package of Obstetrics, Urology, Gynecology, small Organ
- Data Port: USB2.0, Video, S-Video, RS-232, VGA
- Auto generate BMP format report, support USB import and export
